### **9.2 New Students**

#### **9.2.1 First Semester of Year 1**

### **9.4 Scholarship Recipients**

New scholarship recipients, including those receiving funds from the Student Loan Fund (SLF) and other departmental scholarship programs, must secure advance payment for their first-semester tuition fees of Year 1 as specified in Item 9.2.1. If new scholarship students do not have advance payment available, they must request an extension for registration and tuition payment following the procedures in Item 9.6.

For the second semester of Year 1 onwards, the Office of Student Affairs will process funding directly from the scholarship-granting units, and students will not need to secure advance tuition payment.

### **9.5 Students Taking Leave of Absence**

9.5.1 Students wishing to take a leave of absence must submit a request for approval, clearly specifying the duration of the leave, to their department head for consideration. The department must then report the approval decision to the university.

9.5.2 After receiving approval for leave of absence, students must pay the student status maintenance fee for the semester of absence as specified by the university.

9.5.3 Students who have been granted a leave of absence and wish to return to their studies must submit a request for reinstatement to their department head and register for courses within the regular registration period of that semester.

### **9.6 Current Students with Registration and Tuition Payment Issues**

#### **9.6.1 Extension of Registration and Tuition Payment Deadlines**

(1) In cases where students face reasonable financial difficulties that prevent them from paying tuition fees within the university's specified period, or where circumstances prevent them from registering by the deadline, students must submit a request for extension of registration and tuition payment deadlines. This request should specify the reason for extension and the intended payment date within that semester. The request must be submitted to the department head through the academic affairs or academic services division of their affiliated department at least 3 working days before the registration deadline. The department will then forward the request to the Dean of Academic Affairs for approval.

(2) Upon receiving approval for the extension, the university will register the student under the "pending payment" category. Students must pay their tuition fees within the extended period specified in their approved request.

If students face exceptional circumstances that prevent them from paying tuition fees within the initially approved extension period under Item 9.6.1(2), they may submit a request for an additional extension of registration and tuition payment deadlines. This request must be submitted at least 3 working days before the expiration of the first extension. The request should specify the reasons for the additional extension and the proposed payment date within the remaining semester period. The request must be submitted to the department head through the academic affairs or academic services division of their affiliated department, who will then forward it to the Dean of Academic Affairs for approval. The university may grant an extension that shall not exceed the last day of that semester. Students must complete their tuition payment within the university-approved extension period.

If after the registration deadline or approved extension period has passed, students still have not paid their tuition fees, the university will consider the registration incomplete and the tuition fees unpaid within the specified period. The university will proceed to terminate the student's status and take legal action through the legal affairs division.

#### **Clause 10 Verification of Course Registration**

10.1 After students complete their course registration through the online system and pay their tuition fees, all information will be recorded in the database and can be verified immediately.

(Translation)

10.1.1 If students discover registration errors or wish to change courses or sections, they must proceed with adding, dropping, or withdrawing from courses according to Item 5.3 and should verify their registration information in the invoice form thoroughly before making payment.

10.1.2 If students fail to proceed according to Item 10.1.1 within 2 weeks after the start of a regular semester or 1 week after the start of a summer semester, the university will consider the registration correct, and students will not be able to modify their registration information after these deadlines.

10.2 In cases where students do not pay tuition fees within the university-specified period, the online registration system will cancel their registration invoice, which cannot be retrieved. If students wish to pay tuition fees, they must contact their student affairs office to request special registration consideration, and the department will submit the request to the university for approval.
